DATA WAREHOUSE & OLAP

Saya membangun aplikasi web Proyek Akhir Data Warehouse & OLAP untuk menganalisis total pembelian vendor, tren penjualan bulanan per kategori, serta metrik HR berupa rata-rata cuti dan gaji terakhir per departemen. Sistem ini juga menyajikan distribusi penjualan per territory & kategori, serta diintegrasikan dengan mesin OLAP Mondrian untuk eksplorasi data multi-dimensi secara dinamis.

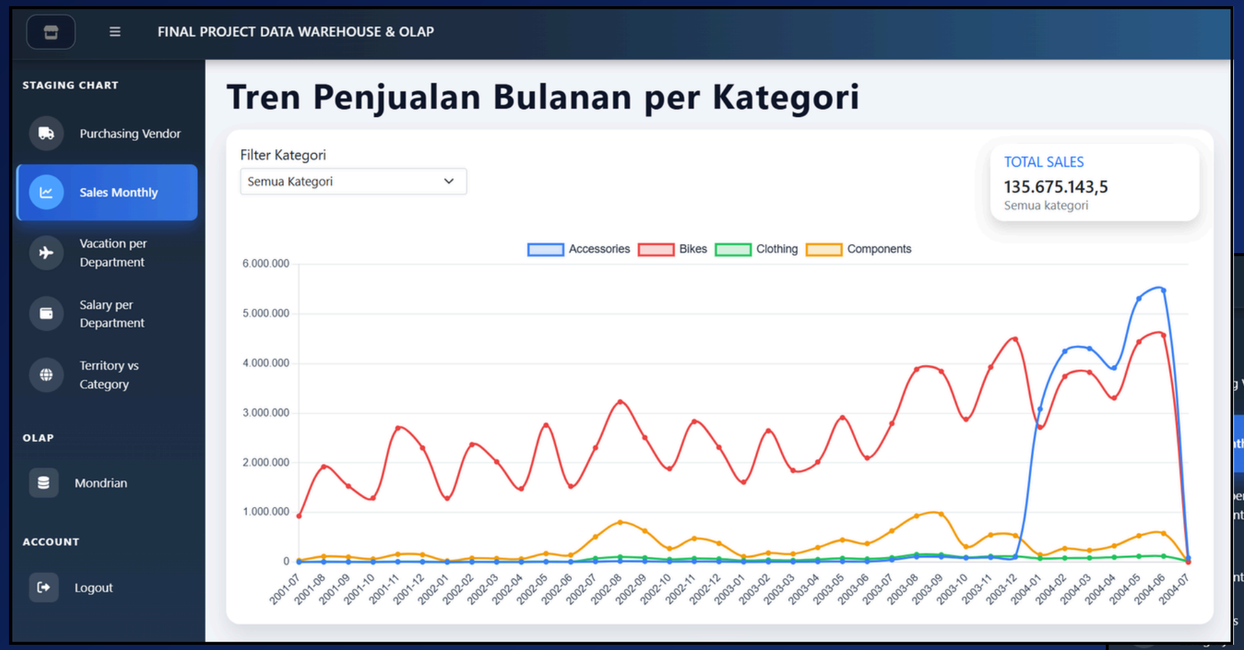

DATA WAREHOUSE & OLAP

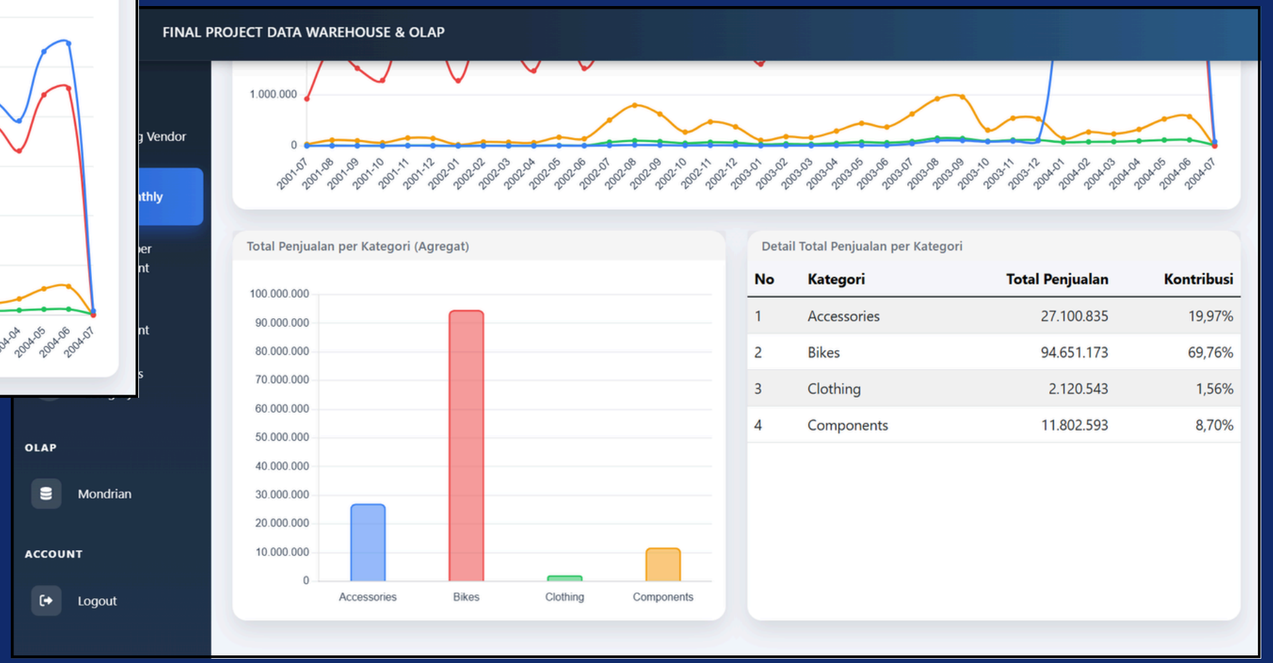

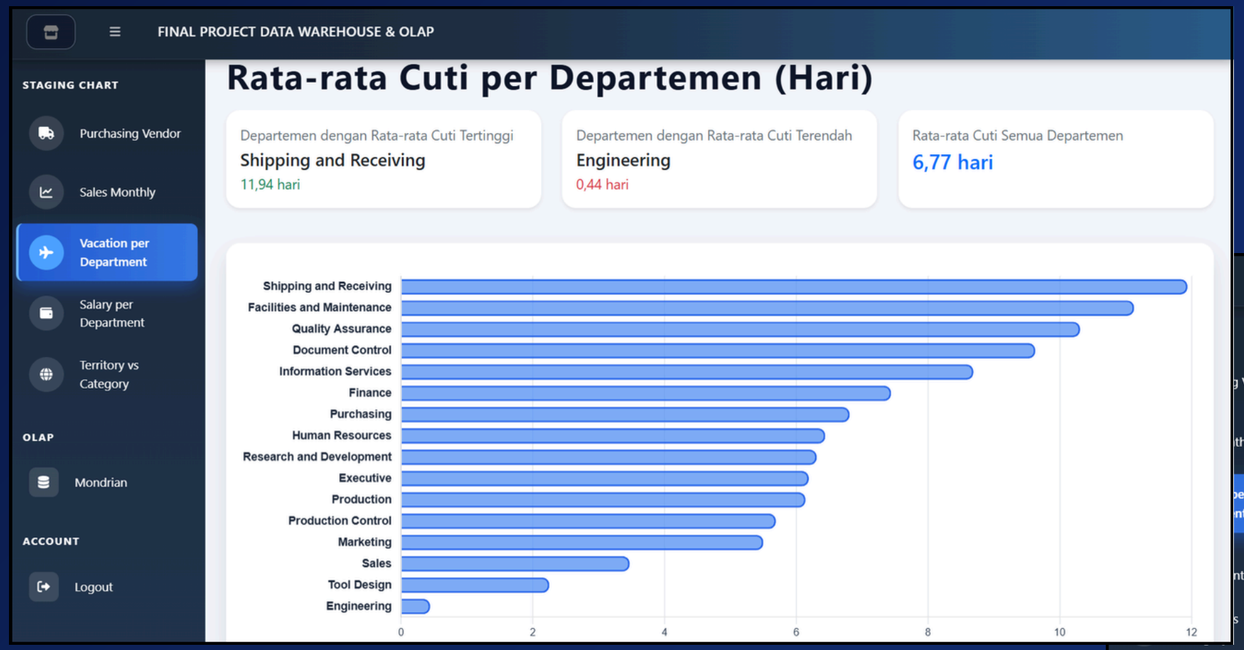

No	Nama Vendor	Total Nilai Pembelian	Persentase
1	Superior Bicycles	Rp 5.034.267	16,78%
